

00:13:20 Garcia E: Hello from Spain! Guadalupe

00:13:45 Garcia E: hello Germany!

00:13:56 Catherine Kiely: Hello and welcome to our webinar. We will get started very soon.

00:14:38 Chris N: Hello Team. In the audience with great anticipation of your wonderful words!

00:14:57 Tracey: Hello from Devon :-)

00:15:52 Keith Oliver: Good afternoon everyone.

00:22:45 Tessa Gutteridge: that's not the naughty barking dog by the way!

00:25:21 LanieL: Hi! Good day all from the Philippines

00:25:46 Tessa Gutteridge: Welcome LLS

00:30:21 Kate Fallows: We'll share this link in a follow up email which will go out in the next couple of days, but here is a link to the publication Jan spoke about that was created using the findings of The Angela Project:  
<https://www.youngdementianetwork.org/resources/good-practice-guide/>

00:31:40 K S: This all sounds depressingly familiar - thanks Keith!

00:44:54 Tessa Gutteridge: do add questions using the Q and A function

00:49:57 Jan Oyeboode: Yes we consulted quite a lot of people about whether YOD-specific info to help care planning would help and everyone was concerned it could become just an exercise. It would be great to hear ideas about how to overcome this ... or alternatives to the toolkit we are suggesting that could improve support.

00:51:47 Jan Oyeboode: Fab list - deserves a higher profile

00:58:51 Jan Oyeboode: The self help guide on cog rehab is called My Life, My goals and it is available on the Alz Soc website. We can include the link in our follow up email.

00:59:46 Chris N: It is also available on the DEEP website.

01:00:01 Jan Oyeboode: Thanks Chris.

01:00:17 Jill H: I keep a page of common used-phrases to cut down time

01:02:40 Tracey A: I work for the Alzheimer's Society in Devon, myself and my colleague have just run a 4 week programme for people who have Young Onset Dementia to see what they would like in their local community. We are continuing with this on a monthly basis and we are looking at creating a user friendly factsheet.

01:03:22 Claire P: Hello All, great to hear you all speak - really enlightening. I have just been appointed as a Clinical Psychologist to specialise in Younger Onset Dementia for people across Coventry & Warwickshire. I am in

a privileged position as I am starting a service from scratch, so I will be taking your ideas forward... I'd love to discuss things further! Claire x

01:03:38 Garcia E: QA: How do you to work to keep a job?

01:03:52 Jill H: our care plans are incorporated on our recording system , we have been working on an easy read version that is populated by what we type on the electronic record, so we use simple sentences , I work with ALD

01:05:46 Wendy L: We are just commissioning Dementia Coordinators in K&M . They will be provided by the VOL sector but work integrated with GPs and Memory services. We are in the process of developing a support plan for the coordinators to develop with patients and carers. I think Keith's care plan is very self explanatory and I think we could consider using this as a template. It would also be uploaded on GP systems so GPs can see what is happening with the patient.

01:06:21 Jill H: in our service with ALD down syndrome have early onset and are reviewed from the age of 30

01:11:44 Wendy L: I think a toolkit would be very valuable as I don't think there has been enough emphasis on the different needs of people with young onset dementia

01:14:00 Jan Oyebode: We'd be very pleased to hear more or follow up ideas with you - please feel free to come back to us via Young Dementia Network

01:14:35 Garcia E: Thanks so much to all of you.

01:14:45 Wendy L: Will we be sent the links to future webinars?
