

VOLUNTEERS NEEDED FOR RESEARCH ON BEREAVED FAMILY CARERS FROM ALL 4 NATIONS WHO LOOKED AFTER AN OLDER PERSON LIVING IN A RURAL OR REMOTE LOCATION IN THE LAST YEAR OF LIFE - PRE AND/OR DURING THE COVID-19 PANDEMIC

We are looking for volunteers from England, Wales, Scotland or Ireland, aged 18 years and above to be interviewed about their experiences of caring for an older person living in a rural or remote location in the last year of their life, pre and/or during the COVID-19 pandemic. Volunteers must have cared for a relative who was over the age of 60 at the time of death and have been bereaved between 2018-2022.

You would be invited to participate in a one-off interview either face to face, by phone or internet videoconferencing. The interview would take about 30-60 minutes of your time. You would be asked to talk about your experiences of caring for this person along with your perceptions of any services that you accesses (both statutory & voluntary), any other mechanisms of support, as well as your time since bereavement.

If you are interested and would like more information, please contact **Dr Caroline Mogan (Researcher) either by email (C.E.Mogan@ljmu.ac.uk) or Telephone (07949430674)**. There is no obligation to take part.

Thank you!
